

Strategic Innovation for the Ocean Economic Sector

Segen F. Estefen

Professor of Ocean Structures and Subsea Engineering
COPPE – Federal University of Rio de Janeiro

Innovation Dialogues Brazil-China
Rio de Janeiro 27-28 August 2014 – Itamaraty Palace

EEZ + Continental Shelf	4.489.919 km²
--	-------------------------------------

50% of the land territory

8.500 km coastline

17 coastal States

463 municipalities

25% of the Brazilian population

Ocean Economic Sector in Brazil

- Oil & Gas
- Maritime Transportation
- Shipbuilding
- Ports
- Fisheries & Aquaculture
- Renewable Energy

Building Innovation

Level 1: Science & Technology [University]

Level 2: Technology Transfer

Supported by Industry and/or Government

[Research Center] or [Specialized Institute]

Level 3: Innovative Industry

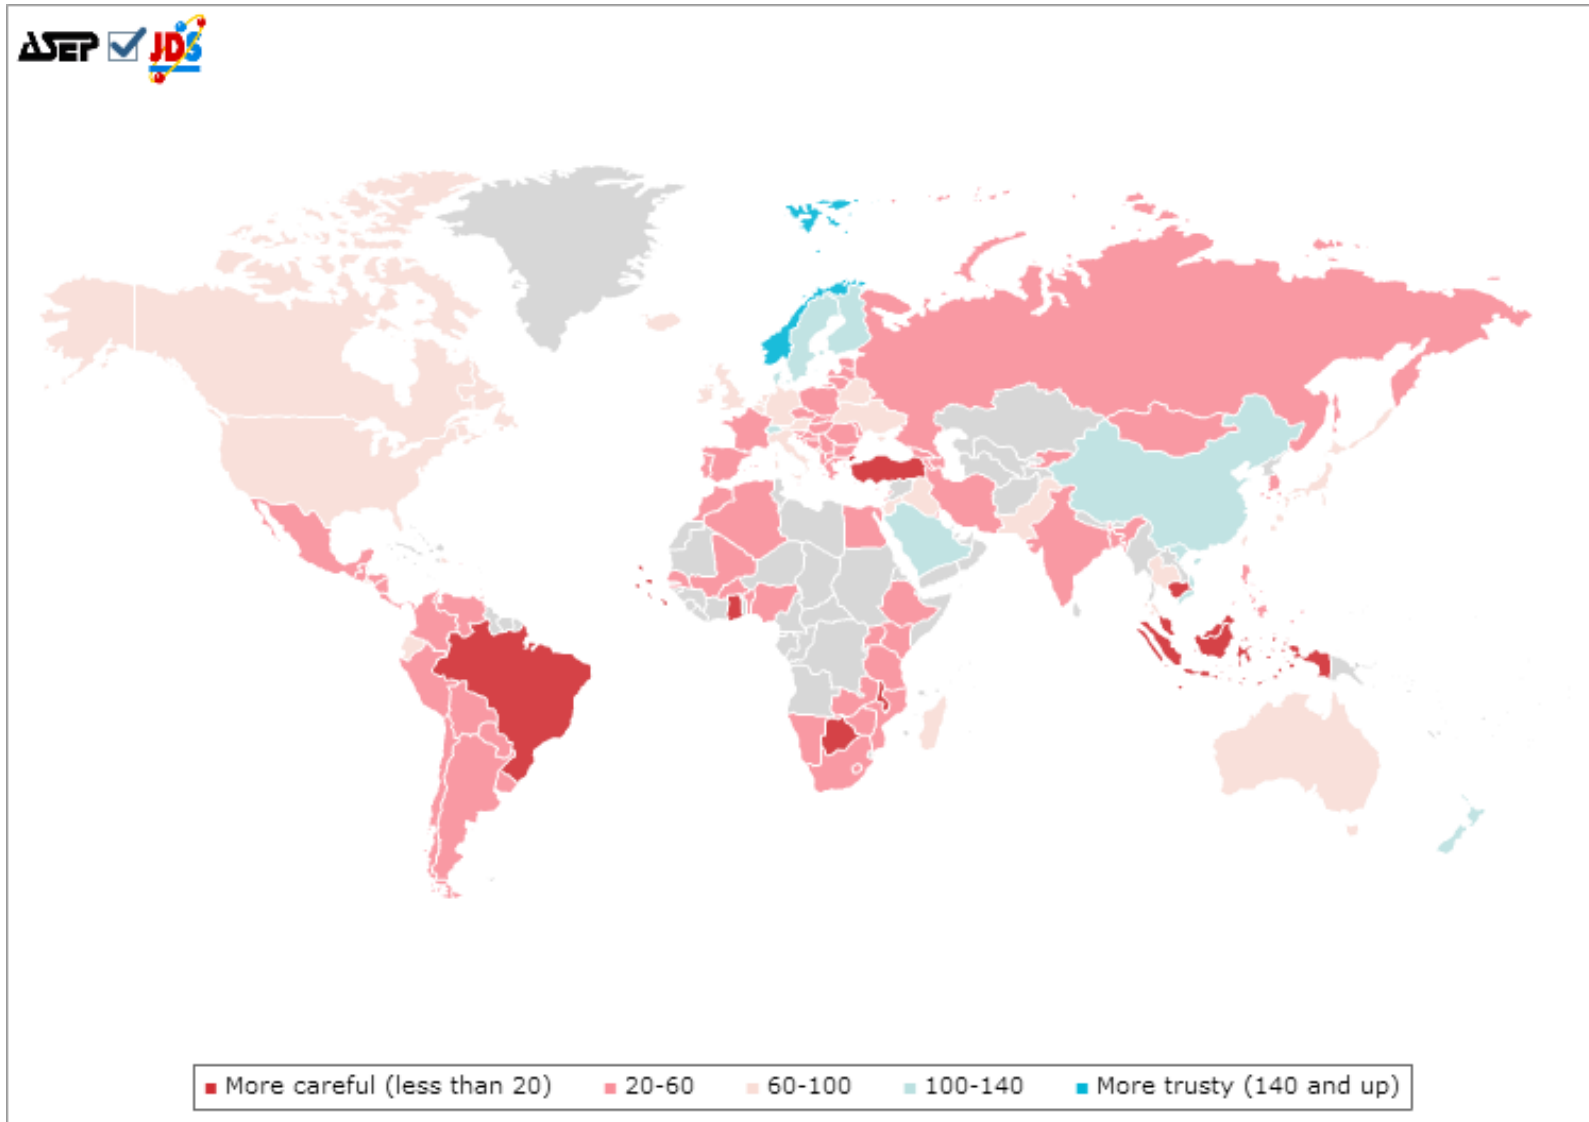

INPOH

National Research Institute for Ocean and Waterways

Research Centers to be established:

- Oceanography of the Tropical Atlantic
- Oceanography of the South Atlantic
- Fisheries and Aquaculture
- Ports and Waterways
- Ocean Technology (2nd phase)

Trust could influence the Degree of Bureaucracy in the Innovation Process ?

Thank you for the attention !
